I was told yesterday that I was being denied medicine because of inability to pay. This is medicine that is without dispute necessary for my survival and for my illness to not get any worse. I was unaware of my condition before I came to your facility. I am scared for my life in here because of facility staffs inability to properly care for me in a timely and/or effective manner. [Please see medical request timeline] Plus the level of discretion of this facility staff is rather lackluster. Not to mention to even file a medical request your only option is in open view of everyone in the day room. I want to know in writing why I am being killed and further harmed by being detained in this facility. I could provide means to survive and seek treatment if it was not for those seeking to deny me basic compassion by keeping me inside a facility that shows no sense of urgency for life threatening illnesses.

The Pettis County Jail and contracted medical staff has failed to adequately treat my life threatening illness that was diagnosed while in their custody. (Please see medical report on file with lab report conducted by the Pettis County Health Department for details. The staff, supervisors, and elected politicians for this department that operate this facility are exercising deliberate indifference and practice a level of inhumane treatment that is criminal to a degree for which charges need to be brought. (I say this with a saddened heart as someone who voted for the new Sheriff thinking him to be less of a criminal than the last one. That has been proven wrong through the detainment and care for which those he employ provide and their deliberate neglect.) Medical deliberate indifference violates my 8th and 14th Amendments of the U.S. Constitution. Please see Postawko Case No 2:16-cv-04219 NKL (WD Mo 2017)

Medical decisions based solely on consideration of cost and convenience results in discrimination from a public entity violating Title 2 American Disabilities Act and the 14th Amendment of the U.S. Constitution.

The level of neglect by the sheriff and those under his employ has been stated as fact by Captain Skylar Viebrock, Medical Office Sierra Hill, C.O. Parretta, Schusselman, Stevenson, and Walker. (Please note that incorrect spellings devolved from lack of person answering the intercom to provide names of C.O. as is policy of this department. Corporal Kelsey and Lunsford have also expressed the neglect of care is an issue at this jail.

Please provide a copy of this grievance and my medical lab report conducted by the health department to the Honorable Judge Koffman who needs to ensure because of the power of his position that detainees are being cared for under statutes in Missouri law that govern the humane treatment of those detained in the county of his court.

The objective-subjective components of a deliberate indifference claim 1) Pettis County Jail has been given adequate notice of serious medical needs.

2) They have failed to take action within a demonstrative standard of care for the sole purpose of cost and convenience.

MEDICAL REQUEST

::

03/30/2022 11:31:05

I feel as though it would be a good idea for me to actually see the doctor regarding some medical concerns that I fear could be caused by my condition that was brought to my attention by my lab report received while I was in custody.

1) I have attributed these symptoms to my lack of mental health care provided since I became a hostage of this county but feel there needs to be further insight into the issue by a medical professional. I have over the last couple months experienced a major increase in fatigue that is rather harming my quality of living standards and has made simple tasks such as research and writing very difficult to complete. I have also had issues with constant rashes that will not go away. Chill, night sweats, muscle aches, and swollen lymphnodes have all been a intermittent issues throughout my time here. I respectfully request to see a doctor as soon as possible to discuss these issues further. My throat is also sore and I have experienced a problem with mouth ulcers.

2) I am also getting another hemrhoid (sorry this misspelled) and need some medicine not sold through commissary.

Thanks again for your promptness.

Captain Viebrock,

Thanks again for your help with the research you provided. I will send it back with one of the C.O.s today in an unmarked envelope for discreteness. Also, items needed from our discussion last week I listed in a service ticket but it is not in the viewable panel. I am not really for sure what happened.

1) Name of medical provider for jail and address

2) Charlie Ackerman, Public Title and Address

3) County Board of Commissioners, Names and mailing address

4) Copy of all grievances, service tickets, and medical request (Mine are not listed on the kiosk from my time in H-pod

5) Time to view my medical records and make notes

6) Jail Account Transactions for last six months (Cannot log in to the kiosk for this)

Thanks again for your help.

04/07/2022 08:19:08

Thank you captain and appreciate it. Sorry for any negativity on my end. This is just stressful and honestly sitting here bored out of my mind day in and day probably makes my reaction not always the best effort. I apologize if I do not seem appreciative of your time and energy in this.

MEDICAL REQUEST

::

04/04/2022 17:49:16

I wanted to send a reminder of my request to see the doctor to figure out if symptoms I am having are related to my life threatening illness or lack of mental health. Both of which are being untreated because of a deliberate indifference because of my socioeconomic level. This is recklessness in care of someone unable to seek other remedies for care because of confinement. This needs to be investigated by an outside source from the jail because individuals working as staff, officers, and/or contracted labor could be implicit in allowing this to occur. Please pass this request for medical care onto the captain as well so further action can be conducted in reviewing what is a overt and blatant criminal act. Thank You.

It should not take this much effort just to obtain medical care. If you cannot provide a level of humane treatment for those you are supposed to be in charge of you need to inform the court for which is required to ensure humane treatment of those in custody under Missouri Statute. The time for more than an excuse beyond, "We are trying to get a new doctor", is long expired.

Red or Roy,

I know you said that Sierra would fix my medicine situation in the morning but this is just not acceptable. The date on the medicine bottle is today and the doctors both spoke of the paramount nature for using medicine as quickly as I can and consistently. I brought this to CO Barlow's attention during dinner as a means of being preemptive on the matter. Please get this corrected I have gone months being held while criminals got away with violating my rights and though I really dont want to send in this lawsuit I feel as though it is the only way to get medical care here. Thank you.

MEDICAL REQUEST

::

05/24/2022 19:20:09

I just wanted to let you know I was supposed to start my medicine tonight. The Civil Rights of Institutionalized Persons Act and Title II of the ADA are very clear that date of new medicine is an observant factor of the initial start date for a new medicine to be administered. Also, I will be refusing any morning medicine as the head of the department stated that stomach aches are very common. I have always had issues with stomach aches from larger or complex medicine such as these and the doctor and I agreed that even though it can be taken anytime that nighttime is best.

Also, Tyranny from Phoenix house said that they would pay for my mental health medicine. May I please see the doctor on Thursday to get this taken care of. If you need my prior records from Katy Trail just let me know.

Please please please get my medicine taken. I cannot express the level of disgust that both doctors felt regarding the level of care I received here. Please make this right as this is such a time sensitive matter that according to the head of the infectious disease center at the University Hospital it should have been dealt with atleast 4 months ago. Competence is an essential element in halting deliberate indifference lawsuits that could go beyond the ACH and their medical staff. I have been very patient as I dealt with this issue but patience cannot be mistaken to allow for intentional neglect.

I spoke with CO Barlow about this issue who said he would call the doctor and get the issue figured out. I do not know if this ever happened but do need details of the call for my notes. Thank you and it is paramount that these issues are corrected.

Captain Viebrock,

I have given your incompetent staff so many chances to redeem themselves in the face of a lawsuit that will focus on bringing you corrupt employees to justice. I was supposed to start my medicine yesterday as the doctor stated in front of your CO. This never happened and even after I informed Barlow and Red prior to the med cart going around. They just pointed the finger at Sierra and made excuses. It was rather disgusting and shows why this place needs court ordered reform. I am sending in my lawsuit to today and will need a copy of my commissary account transactions. I tried to not have to do this but your people leave no other choice.

May I please see the doctor as soon as possible the sores on my butt are multiplying rapidly and are so painful to touch I cant ever sitfor very long. I think at this point many will have to be lanced. Plus they need to biopsied to make sure they are not MRSA. I would say within a week I have went from 7-8 sores to know well over 20-plus. We need to possibly call Dr. Escovar and see if there is something that is in my lab results that my explain this. The pain is just awful and is getting even worse. I cant lay flat without being woke up in pain and even walking results in discomfort. I have had MRSA before and this is very similar in context of pain level. I do know upon contracting MRSA one time that it does come back sporadically. I am sorry to be such a pest but I somehow seem to be riddled with disease and these sores are horrible. Also, we still need to look into getting my mental health medicine started again. My last dosage taken was the day before I was arrested. Thank you.

Per my last couple requests and the conversations we have discussed. These sores on my butt are so painful I am getting were I cant even walk it so painful. They are still increasing innumber as infections do when not treated promptly. I am sure at this point many will have to lanced and I am in so much pain that if I was on the street I would of consulted medical help many days before it reached this point. I need this looked as soon as possible. I cant eat or use the restroom the pain is so bad. I appreciate my medicine but urgent care when requested should not take this long. I am suffering horribly please help.

Sierra- Please make sure I see the doctor today or do a medical protocol. I can barely move or sit because the pain is so bad. I have not slept due to the constant pain level of these sores. The On-Call doctor showed major deliberate indifference in this matter last night. I am so sick of pursuing legal remedies for basic healthcare right. I guarantee as soon as someone actually sees the infected area they will understand why I am in such pain.

I was told on Thursday that the jail doctor was putting me on an additional antibiotic. It is Sunday and I have never received this medicine. This was a time sensitive issue due to current standards of pain and suffering that had to be espoused in a multitude of medical requests. If this facility cannot provide basic health care as a right then something must be done. I am so sick of dealing with issues regarding cruel or incompetent medical standards here. The brutality needs to end though and I will not stop till standards of care are improved.

Sierra,

I think my last dosage of the antibiotic the jail's doctor prescribed should have been yesterday morning. I have still been given this med the last two med carts which was last night and this morning. Can you check on this and update the med book if needed. Thank you.

I was not given my Biktarvey today during the medicine pass at breakfast because they could not be located on the med cart. There was a note stating that my meds would be delivered by mail from the pharmacy. I requested C.O. Gerken to please leave a message for the medical officer who is in charge of ordering. I also told the medical officer at 9:00 a.m. about not getting my med who said she would look into it. I then reminded her an hour later who stated she had been busy with the all-staff cook-out and had not had time to look into it. I then had no further correspondence from her on the issue and was never provided my daily dosage. Missing dosages is harmful for many factors including the creation of resistance factors associated with the failure to follow the regular dosage schedule. Please see that essential job functions of the medical officer are being performed regarding access to medicines in the prescribed format as ordered by the prescribing physician and approved by the facility's doctor. Thank you.

This is the second dosage in a row that has not been provided of my Biktarvey. This issue really needs to be address. My meds are supposed to be auto refilled and delivered from my understanding because of the severity of missed dosages. Please stop harming me. Thank you.

I wanted request my medicines be passed to me at night since I work overnights and they are moving med pass to 8 a.m. which is in the middle of my normal sleeping schedule. Thank you. Disregard if this would in effect make me miss a dosage to parlay scheduling.

I have am having a pain in the upper part of my chest that is giving me breathing issues for about a day and a half. The pain is worse when I move from a prone style position to sitting or standing. May I please get a protocol done to see what is wrong as it seems to be getting worse?
